

400 Barr Harbor Drive  
Application for a FEMA Conditional Letter of Map Revision

Owners of the property at 400 Barr Harbor Drive in West Conshohocken have applied for a Conditional Letter of Map Revision (CLOMR) from FEMA to request changes in the regulatory flood way and flood plain in the area of the site. The Developer proposes to construct an office building, associated parking and amenities.

The area covered by the CLOMR affects properties on the Conshohocken side of the Schuylkill River. It has been determined that the changes proposed will not significantly increase the Base Flood Elevations along the Conshohocken Riverfront.

Following is model and map information related to the CLOMR. The public is invited to comment on the proposed revision. Questions and comments may be made within 30 days of the posting of the information; and should be addressed to Jeffrey Beavan at Bohler Engineering, 610-709-9971.
